## **Cheaper by the Dozen** **Spring 2005**

90 Miles off Broadway's Spring production is the comedy classic Cheaper by the dozen, featuring a cast which includes many talented local young actors, as well as several of the community Theatre company's favorite adult performers. Set in the 1920's the play, based on the real-life story of the Gilbreth family, shows the comical and chaotic side of life in large families. Father, Frank Gilbreth Sr. was a pioneer in the field of motion study and often used his family as guinea pigs with amusing and sometimes embarrassing results. The classic 1950 movie was remade and updated for Steve Martin in 2003.
