

Fools
Spring 2006

Kulyenchikov, Ukraine. Our hero, Leon, has just secured an appointment as teacher to the town beauty, Sophia. Upon his arrival in town, he finds that the villagers are missing more than half a wit and that they have found a strange, new use for maple syrup. Kulyenchikov, Leons new home, was cursed with stupidity 200 years earlier by a bitter sorcerer. The town's only hope for breaking this curse is their new schoolmaster. No one tells him that if he fails to break the curse, he, too, will fall victim to the curse. Why doesn't Leon leave? He has fallen in love with a girl so stupid that she has only recently learned how to sit down. Can Leon rescue his beloved & save the village in time or will he be doomed to live out the rest of his life stupid in this town of fools?
